

Imagining 2029 Webinar: European Strategy for Data Pathways for moving towards (Health) Data Spaces

Wednesday **20 May 2020, 11:00 – 12:15 CET**

Venue: GoToMeeting <https://global.gotomeeting.com/join/953667917>

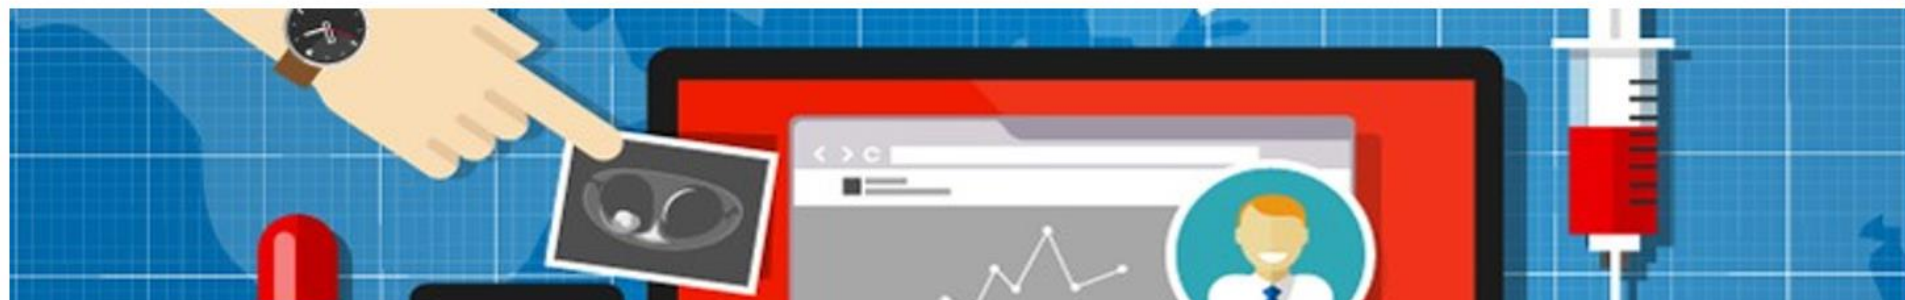

Getting ready for European Health Data Space(s)

Joint reflections towards meaningful reuse of health data in Europe

Inspired by the content of its 20th Anniversary 2019, EHTEL is getting going on its 2020 work programme. With the **Imagining 2029 series of webinars** – hosted by its working groups – EHTEL invites the digital health community to reflect jointly on accelerating digital transformation – acknowledging the opportunities and challenges raised by the current COVID-19 crisis.

In focus:

- ▶ Understanding the overall "European strategy for data"
- ▶ Looking at the concept of European Data Spaces and European Health Data Spaces - process view from a cross-sector perspective
- ▶ Reflecting on what's in for health and care: Joint reflections on relevance for the national and regional eHealth competence centres and sharing lessons learned so far
- ▶ Answering the EC Consultation on strategy for data: What is at stake and how to contribute

11:00 – 11:05

Welcome to the EHTEL ELO Virtual Meeting

Vesa Jormanainen, ELO Co-Chair, THL, Institute for Health and Welfare, Finland
Stephan Schug, ELO Secretary, EHTEL Team

11:05 – 11:20

European Strategy for data and perspectives towards (Health) Data Spaces

Dr Ceri Thompson, DG Connect, Unit H3, European Commission

Q & A from the Audience: Please “raise hand” and/or provide questions in the chat

11:20 – 11:35

European Data Spaces and European Health Data Spaces – process-oriented view from a cross-sector perspective.

Dr Sven Meister, Dr André Nemat, OPEN DEI / Intern. Data Spaces Association - IDSA

Q & A from the Audience

11:35 – 12:05

Perspectives and lessons learned for health and care: (Virtual) Round Table contributions from ELO network members and guests

12:05 – 12:15

Conclusions / Positioning for contributions to the EC consultation

11:35 – 12:05

Perspectives and lessons learned for health and care:**(Virtual) Round Table contributions from ELO network members and guests**

ELO contributors are invited to submit max. 3 PPT pages (in advance!) in support of their intervention. These aspects from the EC consultation should be included:

- 1. Are cloud solutions already largely in use in healthcare (examples include services like SaaS, IaaS, PaaS)? What are the barriers, if any?**
- 2. From a healthcare perspective, what are the priority needs for data re-use?**
- 3. What datasets beyond the health domain are useful?**

- ▶ Reflecting on what's in for health and care: Joint reflections on relevance for the national and regional eHealth competence centres and sharing lessons learned so far
- ▶ Answering the EC Consultation on strategy for data: What is at stake and how to contribute
